SMART POSITIONING GUIDES

Embedded guides simplify setup for precise positioning every time.

COMPACT DESIGN

Easily fits into any clinic without requiring large rooms or extensive space.

STANDARD POWER

Operates on a regular 110V outlet with a dedicated line—no special power requirements needed.

HIGHLIGHT FEATURES

POWER ENOUGH FOR LARGE PATIENTS

From the smallest cat to the largest dog, DirectVet's generator and detector delivers the strength you need for clear, high-quality images.

CONVENIENT DIAGNOSIS FUNCTION

Easy image access, interpretation, and sharing with tools like VHS, TPA, VLAS, and more.

USER-FRIENDLY INTERFACE

Quick and simple setup for capturing images. The streamlined workflow saves time and keeps the focus on patient care.

DirectVet

DIGITAL X-RAY MADE SIMPLE

ExamVue™ Duo pairs seamlessly with DirectVet™, giving veterinarians sharp, high-resolution digital images that can be sent via email or to DICOM-compliant practice management software. This streamlined integration eliminates unnecessary steps and ensures professional-grade results with every X-ray.

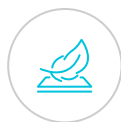

SEAMLESS WITH EXAMVUE™ DUO SOFTWARE

Intuitive tools designed for faster workflows and better X-ray image quality.

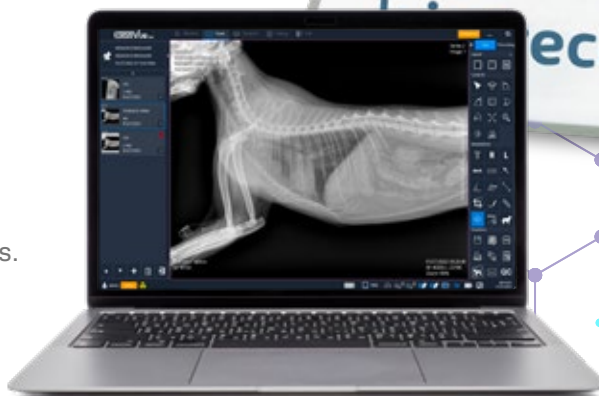

CLEAR, HIGH-QUALITY IMAGES

Powerful generator, delivers excellent results for companion animals.

LIGHTWEIGHT & SPACE-SAVING

No more huge, old bulky machines. Fits perfectly in your Clinic.

ADVANCED EXAMVUE™ DUO TOOLSET

VETERINARY FEATURES DESIGNED TO SUPPORT EFFICIENT, ACCURATE DIAGNOSTICS.

BUILT FOR VETERINARIANS

Every detail is engineered with veterinary professionals in mind.

SEAMLESS INTEGRATION

Easily adapts to any practice's workflow, ensuring a smooth transition.

RELIABLE & USER-FRIENDLY

An intuitive design that can be learned in just 5 minutes, saving time while maintaining precision.

Elevate your diagnostics with ExamVue™ Duo where clarity, convenience, and innovation meet veterinary excellence.
